WHO IS THE KING OF CASH AND WHAT CAN THEY DO FOR YOU?

Spectrum Numismatics was formed in 1991, with a unique vision and a unique financial position. Like most other coin companies, Spectrum Numismatics has a small group of employees - 6; but there's one way that Spectrum is unlike any other company in the coin business. The difference is that cash is never a problem for Spectrum. In fact, Spectrum Numismatics may be the best capitalized rare coin company in the history of numismatics. Spectrum is **king of cash**.

Since 1991, the Spectrum strategy has been very simple. Spectrum felt it could grow its business and increase its market share by taking advantage of its cash resources to always pay the most for rare coin deals that made sense. All it would take to implement this strategy would be world class rare coin knowledge and a ton of cash. Spectrum has both and because of it, Spectrum is becoming the biggest buyer of rare coins in the world.

Who is Spectrum Numismatics? Spectrum Numismatics is world class rare coin experts, unlimited cash resources, and highly efficient staff. The money man behind Spectrum is a name that is known by all in the financial circles of this country, but for purposes of the coin business, it's a name that by choice will remain anonymous.

The president and top rare coin expert behind Spectrum Numismatics is Greg Roberts. Although only 33 years old, Greg has been a major player on the national coin circuit for the past fourteen years. Since that time, Greg has personally purchased $183,285,000 in rare coins. In the process, he has handled virtually every coin in the book. The other world class experts on Spectrum's team combine more than 26 years of experience and over $72,680,000 in purchases of coins.

In just five short years, Spectrum has become the major buyer of ultra rare United States coins. But more than that, Spectrum has become perhaps the largest buyers of all rare coins in all price ranges. Let's talk about major rarities first. Here's a partial list of coins that Spectrum Numismatics has bought at public auction. In other words, this is a list of coins which Spectrum outbid every major United States coin dealer:

Coin	**Grade**	**Date Purchased**	**Purchase Price**
1894-S Barber 10¢	Prf-64	Aug. 1992	$165,000
1913 Liberty 5¢	Prf-64	Oct. 13, 1993	962,500
King of Siam Proof Set	Gem Proof	Feb. 2, 1993	1,815,000
1848-O $10 Liberty	MS-66	Nov. 1994	154,000
1876-CC 20¢	MS-65	Feb. 1995	99,000

WHAT'S IN IT FOR YOU?

Not everyone owns a 1913 Liberty Nickel or an 1804 Silver Dollar. In fact, the odds are that you don't own one of those great rarities. But if you're reading this ad, then there is a high probability that you do own some rare coins. You may have some Uncirculated silver dollars, some Uncirculated United States gold coins, some silver commemoratives, some type coins, some rolls of Mercury Dimes or Walking Liberty Halves and maybe even some rarer coins.

If you do, then you should know that Spectrum is the major buyer of that type of material, too. In fact, 98% of all the coins Spectrum purchases, are coins priced under $5,000, and 18% of all the coins that Spectrum purchases, are coins priced under $100 per coin! And you should know that if you have rare coins for sale, Spectrum wants to buy your coins and will probably pay you more than any other coin dealer in the world for your coins.

HOW TO CASH IN

If you've decided that you want to trade all or some of your coins for cash, you should know that it's really easy to do business with Spectrum. If you have rare coins for sale, and you want to sell them for as much money as possible, then all you have to do is pick up the phone any weekday between 9:00 am and 4:00 pm California time and call the Spectrum cash line collect (714) 955-1250. Ask for Greg or Thad or Kerry and tell them you have coins for sale. Tell them you want to talk to the **king of cash**.

THE KING OF CASH *GOES TO LONG BEACH*

Spectrum Numismatics will be at the Long Beach Coin & Collectibles Expo, October 4 to 8. Spectrum will be there for one reason and one reason only... to buy as many coins as possible. Whether you have a 1913 Liberty Nickel or a 1938-D Buffalo, an 1804 Silver Dollar or an 1881-S Silver Dollar, if you have coins to sell and want to realize the highest possible price for your coins, then you should go to tables 731 & 733 at the Long Beach Expo. Tell them you want to speak to the **king of cash**.

Yours FREE when you subscribe to the PCGS Population Report at the regular subscription price

IF YOU'VE EVER BEEN TO A MAJOR COIN SHOW, YOU'VE PROBABLY HEARD DEALERS ASK THE FOLLOWING:

–*"What's the PCGS Pop?"*

–*"How many have been graded by PCGS?"*

–*"Have any been graded higher?"*

The answers to the questions these dealers are asking can be found in one of the coin market's most influential publications, the PCGS POPULATION REPORT.

The *PCGS Population Report* lists the grades for all coins that have been graded by PCGS. Since PCGS has graded 4,121,575 in the past 9 1/2 years, the *PCGS Population Report* is, statistically, the most relevant research guide in the numismatic world. The *PCGS Population Report* helps you determine a coin's rarity, one of the major components of a coin's value. That's why professional coin dealers constantly refer to the *PCGS Population Report*. It is one of the professional coin traders' most important tools.

VALUABLE INFORMATION FOR ALL COIN BUYERS

There are two versions of the *PCGS Population Report*. The ***monthly*** *PCGS Population Report* contains information for all regular issue United States coins minted between 1792 and 1964, including gold and silver commemoratives. The ***quarterly*** *PCGS Population Report* lists all United States coins, including territorial issues, patterns, and modern (1965 to date) issues. Each issue of the *PCGS Population Report* gives you the following valuable information:

1. A listing of all coins graded by PCGS. This is a logical and complete listing of all United States coins including what the market deems to be significant varieties. If it's not listed in the *PCGS Population Report*, there's a reason.

2. Accurate mintage figures for all issues. The mintage figures in the *PCGS Population Report* are the most accurate figures possible. We've corrected the mistakes of the "Red Book" and other coin guides. If you want the real mintage figures, you'll find them in the *PCGS Population Report*.

3. The total number of coins graded for each issue. This is a valuable comparison figure, both in regard to comparisons with other coins and comparisons to mintages.

4. A listing of the number of coins graded in every grade for each coin. This is the figure that all of the dealers clamor for. This is the figure upon which they base many of their purchasing decisions.

The *PCGS Population Report* is the ***only*** place you can find the information listed above and you get it *every* month!

IT'S EASY TO USE THE PCGS POPULATION REPORT

Although rare coin experts constantly refer to the *PCGS Population Report*, you do not need to be a rare coin expert in order to use the report. The *PCGS Population Report* is very user-friendly. It's easy to read and easy to understand.

All of the coins are listed in a logical order based on their date of manufacture and importance in the numismatic marketplace. Every *PCGS Population Report* includes "how to" instructions that enable you to understand and use all of the information included in the *PCGS Population Report*. Each issue also contains a full glossary of ***all*** the terms used in the *PCGS Population Report*.

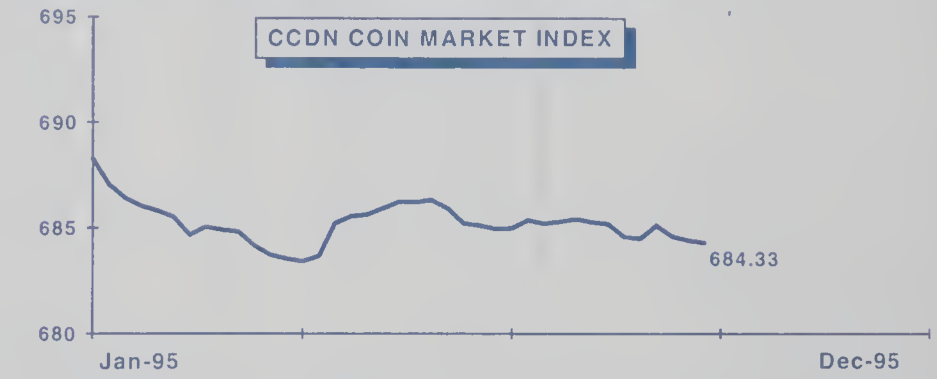
Opportunities Create Long Beach Excitement
Steady Market Is Buying Background

Three times every year, the leading American coin dealers make their trek to the Long Beach coin show. And three times every year, America's (and especially California's) leading collectors come to dream, inspect, compare, and buy. Dealers may disagree over which Long Beach is the best, but certainly the October Show has long been a favorite. The typical question dealers ask themselves (and each other) is, "How good a Show will I have?" This year, with the California tax situation unresolved (well, the State thinks it is resolved), some dealers have decided to remain at home. Their numbers may not be large, but some very familiar faces will be missing. Their announced absence has other dealers asking, "What can I expect?"

With a bourse this large, there is never a shortage of coins to look at; only a shortage of time. Even the most active of dealers cannot hope to inspect every display case, so all available hours will still be filled, despite the absences. Additionally, the Long Beach Auctions hosted by Heritage, as well as those by other dealers, insure a steady supply of fresh material. And since the tax situation has little bearing on customers, you can be sure that they will be there. We anticipate as solid a Show as can be expected in a steady market, and that "collector coins" will be the focus of substantial activity. A few fresh deals, and the Show is made.

That's the good news. There may also be a deeper problem hidden by all the adverse publicity. Some dealers are grumbling that there is not enough wholesale business to satisfy the big overhead of the Show. Airfares, hotel rooms, food, and bourse fees; dealers know that they have to cover a lot of fixed costs before they have a firm idea of how much business they will be doing. A steady market means that inventory is not appreciating, so dealers cannot expect the market to help them cover any coins with stretched costs.

How steady has the market been? The 1990-1995 *CMI* market chart, printed every week, reflects four years of mostly steady levels. Rescaling for 1995 alone, this can only be called one steady market. Yes, we have discounted sells chipping away at Bid levels, but we also have areas of rising demand. After all of the volatility of the past, the certified market (which increasingly has come to represent the *rare coin* market) has a new tradition of stability! A steady market deserves more attention from collectors who can safely add to their collections, and maybe enjoy the fruits of a rising market sometime in the future.



The problem with a steady market is that collectors seem to thrive on the excitement of a rising market. Collectors who won't touch Double Eagles at $500 will stand in line to buy at $750. We don't want to get involved in a discussion over 'crowd mentality', except to note that buyers seem to feel more comfortable in a situation where lots of other people are also buying. This is another advantage of such large shows as Long Beach — there is plenty of buying activity to get the old spirit moving. The market has been steady for so long that most dealers have accomplished what they consider appropriate levels of staff and inventory; the question for them now is, "When will the customers get serious about taking advantage of the stable market?"

Collector Coins Lead Market Common Issues Slightly Volatile

Over the years, we have seen a lot of Long Beach Coin Shows. We've seen the Show grow and the Bourse dealers prosper. But even during the 'best' years, there was always a small group of dealers whose predictions seemed unnecessarily negative. I mean, a thermonuclear holocaust could occur tomorrow, but you probably don't need to include that possibility in your marketing plans. Over the years, we have come to discount the Long Beach naysayers, for the very best of reasons: they were nearly always wrong. Besides, who wants a 'Gloomy Gus' or 'Fearful Fred' around? Well, before this Long Beach Show, thanks to the California Tax situation, we heard more negative predictions than usual, so we felt obliged to pass some of that along. And the Show was slower than usual, so the predictions weren't too far afield.

But there is also plenty of good news in the marketplace, and plenty of other States as well (although it seems the whole numismatic world is here during Long Beach weeks). We are currently in the process of compiling data for our 1996 Numismatic Dealer Directory, and there are still more than 5,000 numismatists in America actively serving customers. Bid levels have been amazingly steady for several years. Coins are changing hands at current levels. Collectors are getting coins at levels they still consider to be 'bargain prices.' Thanks to certification, there is greater agreement in the marketplace (including dealers and collectors) on grading than ever seen before. These are all good, solid advantages!

So what does the market need? More retail buyers buying more retail coins. When those two factors combine, the floating supply of coins will be diminished over time, and the laws of supply and demand will begin to work their magic. Those dealers who have made continuing efforts to cultivate new customers have reaped rewards from this process. Those dealers whose marketing strategy called for gaining new customers through offering low prices have succeeded to a degree, but have cut margins in the process.

Getting collectors to buy more coins may be difficult in a market with collector coins already the strongest component of many dealers' sales. Or, maybe that makes it easier, as one dealer recently pointed out. After several years of 'collector' sales, he has adjusted his inventory, his overhead, and his buying and selling habits. He has learned to listen carefully to his customers, and is especially solicitous of Want Lists. In short, his orientation has shifted from Inventory to Customer Service. In a business that has been traditionally inventory-based, this may be easier said than done. Especially for dealers brought up with the concept that you better served your customers by having a larger inventory!

One of the trends working against retail dealers increasing their sales of 'collector' coins is that today's more sophisticated collectors are also buying out of auctions. The growth of auction sales over the last decade, accompanied by growing ranks of collector-bidders, means that dealers have more competition in bidding, and less demand outside of the auction! This is not to say that retail dealers don't have their own set of advantages, but only that a fluid marketplace always keeps life interesting. While our headlines and articles usually feature the 'big-ticket' coins as news, the fact remains that the preponderance of lots in every auction is geared towards the collector market. Coins in the $250-$2,500 range may not often make headlines, but they continue to make this market work.

A few examples of solid collector coins from the 'Long Beach' auctions? In Superior Stamp & Coin's October 3, 1995 Auction, we note the Morgan 1879-CC $1 in PCGS63 realizing $3,520. In Heritage's Long Beach 'Signature' Sale of October 5-7, interspersed among the wonders of the Miller Collection of Eagles (with their 5-figure prices) were plenty of interesting early certified $10s: 1842-O in PCGS50 at $1,925; 1843 Triple Date in PCGS53 at $1,320; or an 1846-O in PCGS40 at $935. Bread & Butter collector coins.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are nea or below current Bid. CCDn uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

PROOFLIKE MORGAN DOLLARS

P/L Dollars may be semi-reflective (on one or both sides), with less reflectivity than the deep-mirror Prooflikes. Bids for P/L's are usually much lower than for DMPL's, but command some premium over non-P/L strikes.

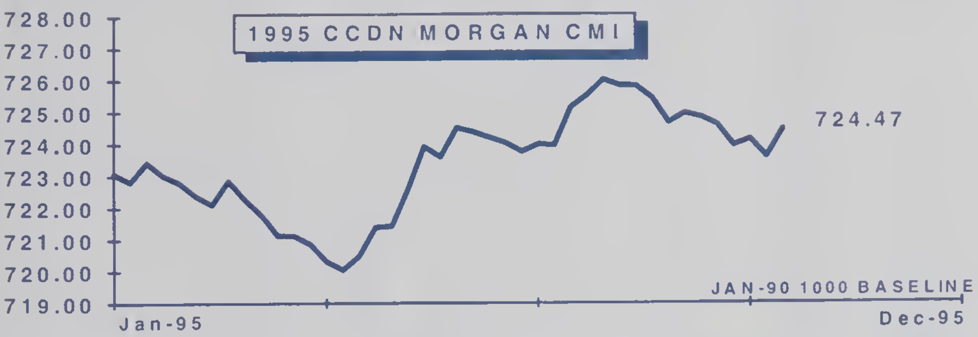
Morgan & Peace Dollars Up on Year Slow Market, Maybe; Active Market, Yes

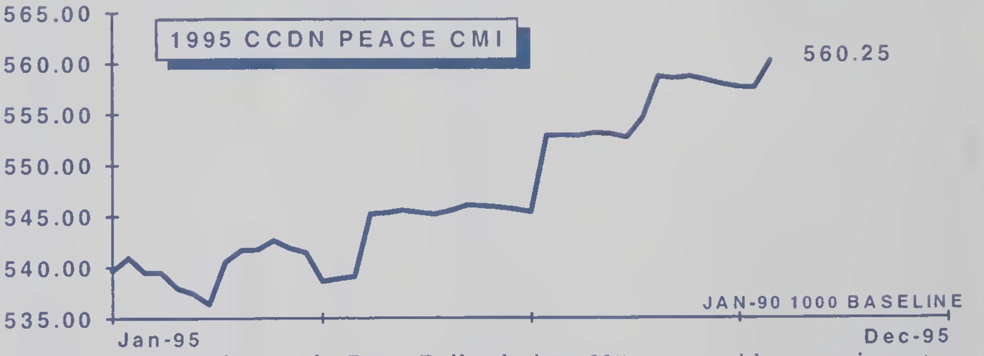
How to measure the overall health of the coin market? Our Market *CMI* comes as close as any measuring device that we know, and we use it even with its limitations. New readers to the *Bluesheet* should be aware that the overall market *CMI* is a simple average of each of the 19 underlying 'individual' *CMIs*. We are well aware that the Standing Liberty Quarters are not as important to the overall market as the Mint State Type Charts; we also know that Franklin Halves are not as important as Mint State Gold Type. We know that, but we also know that there is no way to get a numismatic consensus on a *weighted* system — we know because we tried. So, a simple average it is, because that is something everyone can understand.

And the overall market *CMI* works very well in showing the general market direction. This is obvious to anyone with experience in the market. Look at the *CMI* since we started it in January of 1990; think about what the market has been like over those years, and nod your head in agreement. Since 1992, the market has also been just on the 'South side of Steady', and that is also abundantly clear.

In our opinion, more useful than the overall market *CMI* are the numbers from the individual charts. We will admit to the bias that Morgan and Peace Dollars can tell you much about the overall market. Their very popularity means that they represent an enormous amount of numismatic demand — demand that reflects on (and shapes) the overall market's health. The Morgan and Peace Dollars also have another advantage as market 'signals': in the Uncirculated grades, their values are not impacted by small underlying movements in Spot Silver (as is the case with Mint State Gold Type). For the purposes of this week's *CCDN*, we want to look at what has happened during 1995, and that also gives us the chance to rescale the charts to show more detail.



On the Six-year Morgan *CMI* chart, 1995 shows as a flat line; bring up the 1995 detail, and you see that while there has been almost constant adjustments, the *CMI* has stayed within a seven point trading range. That is steady. The Morgan *CMI* started 1995 at 723.08, dropped to 720.05, climbed back to a high of 726.02, and remains above year-start. Overall, set against a slightly declining market, the Morgan market has been slightly advancing.



Taking a closer look at the Peace Dollar during 1995 may provide a surprise or two. Many numismatists still think of Peace Dollars as the Morgans' little brother. A little weaker, a little less active. So, how have Peace Dollars been performing so far during 1995? Very well indeed, thank you. Set against that general background of slight weakness, the Peace Dollars have been showing some strength; their *CMI* is up about 18 points on the year. Compared to many other series, their performance could almost be called strong. It has, at least, been generally consistent since the modest decline in early Spring.

Taken together, the Morgan and Peace Dollars have had a decent year, and their success has certainly helped buoy the rest of the market. The market may be slower than dealers would prefer, and it may well be lower than they would prefer. But if the last five years have taught dealers anything, it is that they must follow the demand of their customers to survive. If Peace Dollars are hot, then Peace Dollars it is. If Mint State Gold Type comes alive again, then Gold Type must be the star. It's either serve the demands of the customer, or convince them to become contrarians and buy *against* the market trends.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

Discounted Sells Outpacing Increases, Mask Strengths of Market

Discounted sells were quite noticeable this week, as dealers indicated their willingness to 'cut price a little in order to make the sale.' The number of declines was not overwhelming, mind you, but just notably more conspicuous due to the overall lack of advances. Only the Gold Commemoratives chart shows an advancing *CMI*, as declines outpaced rising Bids five-to-one. While the discounted sells were more noticeable this week, the market continues to be "comfortable" at these levels; coins are trading, with appropriate premiums being offered for premium-quality pieces. The 'raw' count of minus signs is somewhat misleading, as many represent very small declines in value; that said, of course, we would still rather see plus signs of any size!

There is also an 'invisible' strength in this market that we note during our analysis, but which generates neither plus signs, minus signs, nor trading reports. We refer to the depth and levels of Bidding support in the market. A Bid at current levels holds the market steady (and here we should note that the market reported in the *Bluesheet* is about 97% steady this week), but doesn't produce any news. We are seeing increasing Bids for multiple coins at current levels, and even in the case of Bidding on 'solitaires,' we are seeing the Bid remain up even after the purchase of specimens. This is especially prevalent in the grades below MS/Pr65. In 65 and above, the Bids on the rarer coins are less consistent, no doubt due to the rarefied levels that Gems still hold.

From what dealers tell us, the key to success in this steady market continues to be based on customer demand and customer service. Inventories have to be constantly trimmed to avoid undue exposure, while meeting the current needs of current customers. The dealers with the strongest retail presence are doing the most business, and the wholesalers know they are also the biggest buyers in the market. This really is a key success factor in today's market, and it bears some more exploration.

In the 'good old days,' coin dealers carried the largest inventories they could. The more coins, the better the chances of being able to meet demand when it came along. Large inventory equaled customer-servicing ability. It took a lot of capital to assemble and carry the inventory, but with coins usually rising in value, you made money selling or holding. Some dealers actively pursued Want Lists, but the business was definitely inventory based, and not service-oriented. Few dealers were actively involved in cultivating new customers, other than the typical advertisement in the 'Yellow Pages.' Today, success comes from finding customers, finding the coins your customers need, and turning your inventory quickly.

We were reminded of this while visiting the offices of one of our more successful advertisers this past week. Their coin market really is active, but the higher levels of activity come by way of strong financial support, active Want Lists, and a larger inventory to support customer demand. The small percentage of dealers who have their success factors in place are doing the lion's share of big business in this market. It still takes money to make money (some things haven't changed), but the orientation is changing. Dealers with large demand loads still need a large inventory, but it is the demand that drives the operation, and not the operation. Now when dealers brag, it's about sales, not inventory size. Without a strong customer base, it is hard to survive in this steady market whatever your size.

Certified coins can play a large role in your ability to cultivate those new customers. To a numismatic novice whose untrained eye can see no differences between two coins, the idea of multiples of value being paid for higher-quality can be very scary. By removing (or at least postponing) the necessity of grading expertise, the slab has removed a major concern for new customers; third-party grading really helps build trust levels. It is not a coincidence that the vast majority of business done by our advertiser is in certified coins.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers are strictly the responsibility of the dealers and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

MARKET LISTINGS

MARKET columns reflect the latest dealer–to–dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks, sell lists, coin shows and other sources of *wholesale* transactions. Auction *prices realized* or *retail* trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or belief that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase, or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy**: During the thirty days prior to publication, we track the lowest sales–related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "**w**" – Lowest asking price during the week prior to publication (*week old*); "**m**" – Lowest asking price during the previous three weeks (*month old*); "**t**" – Trade during the most recent month; "**lm**" – Lowest asking price appearing *last month*; "**lt**" *T*rade appearing *l*ast month; "**ot**" *T*rade *o*lder than 2 months; " " a blank, for all Market prices older than two months; "**a**" for auction transactions; "**oa**" – auction older than 1 month.

COMMEMORATIVES

Some bids within represent very conservative sight–unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

THAT'S HOW MUCH MONEY THE KING OF CASH SPENT IN THE FIRST 7 MONTHS OF THIS YEAR.

DID *YOU* GET YOUR SHARE?

Spectrum Numismatics International, the buyers of the 1913 Liberty Nickel and the King of Siam Proof Set, have spent $24,116,737 purchasing rare coins so far this year.

As you can see, Spectrum has a huge appetite for rare coins. There have been 151 working days in the first 7 months of 1995. If you figure a work day at 8 hours, that means so far this year, Spectrum has spent $100,000 every 5 hours! Spectrum needs to buy *your* coins and is willing to pay *absolute top dollar.*

IF YOU WANT TO GET THE MOST MONEY FOR YOUR COINS... GO DIRECTLY TO THE SOURCE.

The amazing thing about the $24,116,737 worth of rare coins that Spectrum has purchased so far in 1995, is that only $868,203 were purchased directly from the public. If you want to sell coins to the *ultimate buyer,* if you want to get as much money as possible for your coins, then shouldn't you go directly to the source? Shouldn't you go directly to the **King of Cash?**

WHAT KIND OF COINS CAN YOU SELL TO THE KING OF CASH?

Spectrum paid $962,500 for the 1913 Liberty Nickel. And they paid $1,815,000 for the King of Siam Proof Set. But the facts are that 94% of Spectrum's purchases are for coins less than $5,000. And 18% of Spectrum's purchases are for coins less than $200.

While Spectrum is the nation's top dollar buyer of ultra rare United States coins, Spectrum is also the major buyer for moderately priced United States numismatic coins. Here's a short list of some of the items that **King of Cash** is currently interested in buying: Original BU bags of Morgan/Peace dollars, BU rolls of Walking Liberty 50C and Mercury dimes, ALL BU gold coins, pre-1916 Type coins in all grades, pre-1943 Proof coins and sets, and especially **COMPLETE COLLECTIONS!**

HOW TO CASH IN

If you've decided that you want to trade all or some of your coins for cash, you should know that it's really easy to do business with Spectrum. If you have rare coins for sale and you want to sell them for as much money as possible, then all you have to do is pick up the phone any weekday between 9:00 am and 4:00 pm California time and call the Spectrum cash line 714-955-1250 *collect.* Ask for Greg, Thad or Kerry and tell them you have coins for sale. **TELL THEM YOU WANT TO TALK TO THE KING OF CASH.**

The World's Most Important Coins Are Graded by PCGS...Are Yours?

Why are the world's most important coins graded by PCGS?

Because when a discriminating collector goes to the ends of the earth to select the finest known coins for his collection, you can bet he's going to insist on having those coins graded by the most respected and reliable third-party grading service in numismatics — the Professional Coin Grading Service.

But regardless of the size or significance of your collection, we know the importance you place on your coins. We grade each and every coin with equal care — regardless of value or pedigree.

And like the coin pictured here, your personal numismatic masterpieces deserve to benefit from the strict, unwavering grading standard upon which PCGS has built its reputation.

Like the beauty of this coin, PCGS's grading standard has withstood the test of time — and the rigorous demands of the rare coin marketplace — because PCGS's standard remains constant through all market conditions.

PCGS represents professional integrity and grading accuracy to coin buyers and sellers throughout the rare coin community. Time and again, more professional coin dealers, the finest auction houses, the country's most noted collectors, and the coin-buying public depend on PCGS to grade their important coins. The confidence they have shown in our product proves that PCGS is the grading service of choice!

PCGS's grading staff is renowned for its expertise and is comprised of many lifetimes of experience in all facets of numismatics. Assigning the proper grades to our customers' coins has always been our first priority.

And nowhere is PCGS's ongoing commitment to consumer protection and satisfaction more evident than in its cash-backed Guarantee of Grade and Authenticity.

PCGS grades coins from the United States and more than 80 foreign countries. We offer a variety of super-fast turn-around and economy services starting at only $15 per coin. Contact the PCGS customer service department at 1-800-447-8848 for a free list of PCGS authorized dealers nationwide who can assist you in determining which services are right for your coins.

So whether your numismatic masterpiece is worth $50 or $500,000, your coins deserve to be graded by PCGS because every coin we grade is an important coin.

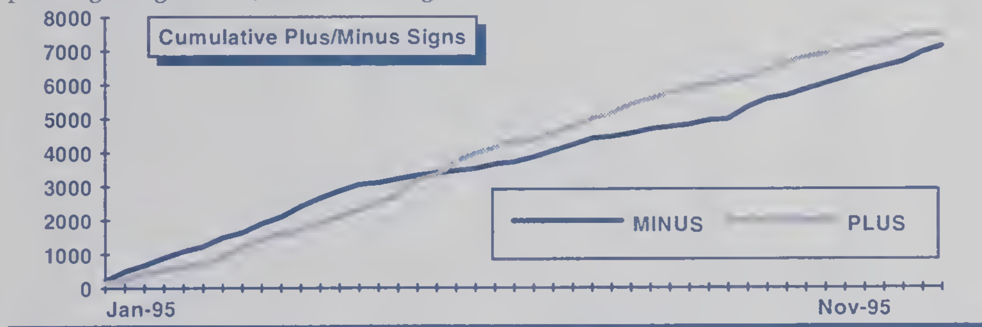
Sells Still Nibblin' at Steady Market Bowers & Merena Sale Highlights Gold

Every so often, a dealer will suggest that we write only about the "good news" in the marketplace; of course, this usually follows some pessimist complaining that we are too optimistic about the coin market. Well, we agree — we would like to see nothing but increasing Bids, so that we only have good news to write about! Like many (most) dealers, we will admit that our preference is for a steadily rising market, but will equally acknowledge that even a steady market is better than a declining market. In a market like this one — that is , **97% steady** — the relatively small number of discounted sells loom out of proportion. The journalistic problem with a steady market is that it doesn't produce many headlines, and the 'changes' that do occur are not always "good news". Our readers aren't the only ones sick of a market that continues on the 'South side of steady'!

So far during 1995, the *CMI* has slipped slightly from 688.27 to 682.78, which we have described on many, many occasions as "mainly steady". Like our market *CMI*, plus and minus signs are a reliable (if rough) indicator of market trends. During those same ten months, the cumulative total of plus versus minus signs also shows a steady market. The year started a little on the weak side, strengthened some during spring, and has been weaker lately; since January, the weekly charts in the *Bluesheet* have shown a total of 7,504 plus signs against 7,190 minus signs.



Now we cannot talk about plus/minus sign counts without mentioning their big caveat, which is, that we don't track whether they represent very small or very large changes. However, that caveat applies for both advances and declines, so we are still left with a mainly steady market.

There is another way to demonstrate the core strength of the 1995 market, and that is by looking at the cumulative count of *steady* issues — those that in any given week showed neither an advance nor a decline. Since January, the average *Bluesheet* showed Bid levels that were unchanged from the previous week on **97%** of the reported prices (note that we are *not* stating that 97% of current Bid levels are the same as they were in January). So, in an average issue, only three percent of the Bids change; half increase, and half decrease. Like we said, a steady market, driven a little South by the discounted sells. The real non-news, however, continues to be the underlying Bid strength in the MS61 through MS64 grades across the *Bluesheet*. No plus signs to count, no minus signs, and not much in it for headlines. Just the solid kind of strength which could be the foundation for future growth, if it can ever come out from the shadow of the discounted sells.

Bowers & Merena's upcoming Fred & Ward Collections Auction, to be held November 13-14, contains many important certified coins. An impressive offering of patterns will attract specialists, as will the many high-quality type coins. As has been the case in this market, some of the most notable coins will be found among the rarer-date and better-quality U.S. gold coins:

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

CERTIFIED COIN DEALER newsletter

CCDN — a weekly report on the ***Sight-Unseen*** *certified market published by the Coin Dealer Newsletter (est. 1963)*

Vol. X No. 45 November 10, 1995 Single copy price $4.00

Three Most Notable Elements in Certified Market: Stability, Stability, Stability

Not much 'headline' news from the Certified market this week. Dealers report business picking up just a little in early Holiday shopping, with generic slabs destined for more than a few stockings this year! Just one pretty, "neat" coin (think Morgan Dollar, Walking Liberty Half, Buffalo Nickel, or Standing Liberty Quarter), purchased at the current reasonable levels, could well start a new collector on a lifetime hobby. Make sure you make those novices and shoppers coming into your shops feel welcome!

We continue to receive feedback from dealers expressing their opinions on the continuing lack of market excitement. Most start with "Well, of course I'd rather see prices rising, but..." and then go on to explain that stability has made managing their businesses a lot easier than in boom/bust cycles. Now, all dealers know that the coin business is cyclical, and has been for their entire lives, and probably will continue to be so in the future. We all (well, almost all) agree with that prediction. So, how to explain the current stability, and when and if it ends, will prices rise or fall?

We try very hard to stay out of the predicting game, since putting guesses in print removes your future opportunities to claim a faulty memory! We will content ourselves with one simple observation. Current price levels, when compared to those of 1990, show many coins selling below half their prior levels; when compared with the peaks of 1988/89, the results are even more dismal. There is no surprise in this — every dealer and collector who suffered through the down cycle knows it only too well. But, *BUT,* the market has shown more stability than anything else since 1991. Oh, some dealers will point to the continuing declines (from discounted sells) as evidence of the continuing liquidation of the market (and they are probably right), but there are also many coins rising in value. Some coins rise, and some slide — sounds like a healthy market in operation to us. Coins are trading at today's levels, and much of the risk has been removed by previous declines. We hear from many dealers that their customers are really finding coins *attractive* again.

Shades of the 'Apostrophe' sales! This November 29 & 30, in New York City, the Numisma '95 Auction Sale will be presented by three firms: Stack's, Rarcoa, and David Akers. The catalogue contains enough quality coins to excite the customers of all three firms, and then some! It's a good thing that quality numismatic items have been bringing such high prices at auction lately, because this super sale of "Numismatic Rarities for the Collector" has even more quality than could be hoped for. There is a good mix of certified and raw material spread across the sale. For defining a numismatic event, how about a sale dispersing a hoard of 82 specimens of the rare 1873 Proof 3-Cent Silver? To illustrate the depth of the holdings, feast your eyes on the high quality certified Half Eagles from the 1840s and 1850s:

The Certified Coin Dealer newsletter (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

PROOFLIKE MORGAN DOLLARS

P/L Dollars may be semi-reflective (on one or both sides) with less reflectivity than the deep-mirror Prooflikes. Bids for P/L's are usually much lower than for DMPL's but command some premium over non-P/L strikes.

There is a Multitude of Dealers To Choose from when Selling. . .

. . .But one stands out from the others For Three Very Good Reasons.

Reason #1 – Competitive prices consistently paid on all grades and types of U.S. Gold as well as a wide variety of Non-Gold U.S. Coinage.

Reason #2 – Commitment to providing the ultimate in service. Your business, large or small, is our first priority. While some prefer to talk, we'd rather listen. Tell us what your requirements are, and we will always endeavor to go one step beyond them to achieve your total satisfaction.

Reason #3 –

~~*NONSENSE*~~

We believe it is important to know and trust those with whom you choose to do business. If you've never done business with us before, give us a try. Our many satisfied customers have discovered why the not so obvious choice has become the best choice the informed dealer, collector, or investor can make when selling.

THAT'S HOW MUCH MONEY THE KING OF CASH SPENT IN THE FIRST 7 MONTHS OF THIS YEAR.

DID *YOU* GET YOUR SHARE?

Spectrum Numismatics International, the buyers of the 1913 Liberty Nickel and the King of Siam Proof Set, have spent $24,116,737 purchasing rare coins so far this year.

As you can see, Spectrum has a huge appetite for rare coins. There have been 151 working days in the first 7 months of 1995. If you figure a work day at 8 hours, that means so far this year, Spectrum has spent $100,000 every 5 hours! Spectrum needs to buy *your* coins and is willing to pay *absolute top dollar.*

IF YOU WANT TO GET THE MOST MONEY FOR YOUR COINS... GO DIRECTLY TO THE SOURCE.

The amazing thing about the $24,116,737 worth of rare coins that Spectrum has purchased so far in 1995, is that only $868,203 were purchased directly from the public. If you want to sell coins to the *ultimate buyer,* if you want to get as much money as possible for your coins, then shouldn't you go directly to the source? Shouldn't you go directly to the **King of Cash?**

WHAT KIND OF COINS CAN YOU SELL TO THE KING OF CASH?

Spectrum paid $962,500 for the 1913 Liberty Nickel. And they paid $1,815,000 for the King of Siam Proof Set. But the facts are that 94% of Spectrum's purchases are for coins less than $5,000. And 18% of Spectrum's purchases are for coins less than $200.

While Spectrum is the nation's top dollar buyer of ultra rare United States coins, Spectrum is also the major buyer for moderately priced United States numismatic coins. Here's a short list of some of the items that **King of Cash** is currently interested in buying: Original BU bags of Morgan/Peace dollars, BU rolls of Walking Liberty 50C and Mercury dimes, ALL BU gold coins, pre-1916 Type coins in all grades, pre-1943 Proof coins and sets, and especially **COMPLETE COLLECTIONS!**

HOW TO CASH IN

If you've decided that you want to trade all or some of your coins for cash, you should know that it's really easy to do business with Spectrum. If you have rare coins for sale and you want to sell them for as much money as possible, then all you have to do is pick up the phone any weekday between 9:00 am and 4:00 pm California time and call the Spectrum cash line 714-955-1250 *collect.* Ask for Greg, Thad or Kerry and tell them you have coins for sale. **TELL THEM YOU WANT TO TALK TO THE KING OF CASH.**

Retail Market Activity "OK", But Lacks Excitement

Bolen Dimes: Small Size, Big Glitter

The coin business has picked up a little with Holiday shopping; according to some dealers, 'business is as good as it has been all year.' That is to say, they report that coins are trading at current levels, and they are able to replace sold inventory at levels that let them lock in some profit. But make no mistake about it — profits are coming from transactions, and not from any theoretical increases in inventory values. And while traffic remains as steady as the market (now there's a thought), demand is that of collectors quietly considering new purchases. Not much excitement, just constant adding to collections as opportunity and finances permit. Even though dealers are much more aware now of concepts such as "inventory turns," this is still a business that requires an enormous investment in stock. As one dealer put it, "It takes coins to sell coins." Collectors like to sit down and look at specimens before buying. So dealers need to keep enough coins to serve their customers, but still 'turn' their coins as often as profitably possible.

We've been catching some 'good-natured' kidding lately about our often-used expression "just South of Steady". Fair enough, and it gives us the opportunity (with friends) to respond that dealers *know* the solution to eliminating that phrase from our lexicon. Bid early, and Bid often is still a remarkably effective strategy. In a free market, if some dealers want to make a quick sale and thereby give other dealers (or their retail clients) a bargain, at least they are encouraging the movement of coins. 'Keep the inventory turning' might end up as the summary for the decade of the '90s, just as 'Volatility' characterized the '80s. We only report the market results of such sales, just as we report the positive market results of increased Bid levels.

With discounted sells again accounting for this week's minus signs, we thought we might try some new phrases. "Incremental liquidation" was one suggestion; another was "Slight Slide from Quick Sells." Wow. Didn't care much for "Slight Slippage" either. How do you compress into a few simple words a healthy market, with coins trading, and some Bids rising, but with just a few more Bids declining due to discounted sells, so that the long-term trend is that of ever-so-slightly declining prices? Maybe with the Holidays coming up we could try "Steady, With a Hangover." Even that doesn't work, because buyers are only too happy to be adding to the collections at these reasonable levels; true collectors are celebrating the removal of much of the volatility from the marketplace.

In last week's *Bluesheet*, we listed some of the amazing branch-mint Half Eagles that will be auctioned at the Numisma '95 event in NYC on November 29 & 30. The catalogue also contains the Waldo E. "Pat" Bolen Collections of Dimes and Walking Liberty Half Dollars. Dime specialists may never get an opportunity like this again! While most of these wonder Dimes are raw (including such rarities as the 1798/7 13-Stars, the 1804 13-Stars & 14-Stars, or the 1873-CC With Arrows), you can bet that the certification services will be buzzing with Bust, Seated Liberty, Barber and Mercury Gems next month! For the buyers who prefer their Dimes already in slabs,' bidding will be keen on:

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

Fred & Ward Collections Realize $3 Million Better Date Gold Bringing Better Prices Realized

Coin collectors often share an unusual perspective on time. Maybe it's because we spend many of our waking hours thinking about the past, because of those lovely pieces of history that we all pursue. Or, perhaps, as one friend recently argued, we collect pieces of our past because a few of us think about the past. I don't know which comes first, but I can honestly say that I never met a coin *collector* who didn't have a keen *sense* of history. A feeling for tradition seems to come naturally to such collectors. On the other hand, we've all met people who have *no* sense of history, and showing them our coins is an exercise in futility.

These thoughts on 'time' came about when a friend remarked how quickly the *week* between Thanksgiving and Christmas passes (the fact that he celebrates Chanukah didn't prevent me from promising to steal his line!). Dealers working retail coin shops know this, and they also know how important it is to bring new customers into the shop when they are in a buying spirit. The amazing thing is how much numismatic history, how much of our cultural history, you can purchase in a coin shop for $50. The memories of Granddad talking about the Silver Dollar he found in the toe of his stocking every year. The $5 Lib that Grandmother had in her purse when she passed through Ellis Island. The Holiday season is a time of tradition, and the nostalgia of youth and family is in full bloom, and that is part of the numismatic package that we appreciate. But until somebody figures out how to 'hole' MS62 Morgan slabs for hanging on the tree (wouldn't that be a sight!), numismatic presents will still have to be gift-wrapped.

As expected, better-date and rare U.S. Gold (mostly featuring Lady Liberty) was the winner of the " Miss Popularity" trophy at Bowers & Merena's auction held last week in New York City. The Fred & Ward Collections catalogue was notable for its strengths in two important areas, U.S. Gold and Patterns, and it came as no surprise that those two areas saw enthusiastic Bidder demand. The Pattern section of the catalogue, impressive for the breadth and quality of its offerings, was also extremely popular with the Bidders; many of these numismatic masterpieces are reaching the mainstream instead of just being chased by the specialists. Highlights included an 1879 Washlady Quarter (P-1783) in Pr66 realizing $14,300, and an 1882 Shield Earring Quarter (P-1900) in Pr66 realizing $24,200.

Among the other highlights in the Bowers & Merena Auction was a wonder Proof Set from 1894, which realized the wonder price of $33,000; the coins graded 1¢-NGC Pr65R; 5¢-NGC Pr68; 10¢-NGC Pr68; 25¢-NGC Pr66; 50¢-NGC Pr67; $1-NGC Pr68!

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest unanimously reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are at or below current Bid. CCDn uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

MARKET LISTINGS

MARKET columns reflect the latest dealer–to–dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks, sell lists, coin shows and other sources of *wholesale* transactions. Auction *prices realized* or *retail* trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or belief that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase, or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy**: During the thirty days prior to publication, we track the lowest sales–related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: **"w"** – Lowest asking price during the week prior to publication (*w*eek old); **"m"** – Lowest asking price during the previous three weeks (*m*onth old); **"t"** – *T*rade during the most recent month; **"lm"** – Lowest asking price appearing *l*ast *m*onth; **"lt"** Trade appearing *l*ast month; **"ot"** *T*rade older than 2 months; **" "** a blank, for all Market prices older than two months; **"a"** for auction transactions; **"oa"** – auction older than 1 month.

COMMEMORATIVES

Some bids within represent very conservative sight–unseen buy prices on the part of the highest visible bidder
In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

IN OCTOBER THE KING OF CASH WENT TO NEW YORK...

DID YOU SEE HIM?

DID YOU GET ANY OF HIS MONEY?

On October 16th and 17th, 1995, Stack's in New York City, held their 60th Anniversary Sale. It was a fabulous group of coins and the auction was attended by every major rare coin dealer. The competition was fierce and the winning bidders had to be willing to pay more than any other dealer or collector in the world for these fabulous coins.

One firm clearly dominated the bidding action. The entire sale realized $4,716,720. ***Spectrum Numismatics*** spent a total of $1,275,008. They were literally 27.03% of the sale. The **King of Cash** had struck again.

Highlights of ***Spectrum's*** purchases at the 60th Anniversary Sale include:

1799 Silver Dollar	**$60,500**
1855 Ty. II Gold Dollar	**$41,800**
1880 $4 Coiled Hair Stella	**$308,000**
1907 $10 Indian	**$50,600**

When great coins are sold, no one is willing to pay more than ***Spectrum Numismatics***. And if you have ultra rarities for sale, it's clearly in your best interest to talk to the **King of Cash**. But Spectrum is also a major buyer of **ALL** U.S. numismatic coins in **ALL** grades and **ALL** price ranges.

WHAT KIND OF COINS CAN YOU SELL TO THE KING OF CASH?

Spectrum paid $962,500 for the 1913 Liberty Nickel; $1,815,000 for the King of Siam Proof Set and $308,000 for a Coiled Hair Stella. But the facts are that 94% of ***Spectrum's*** purchases are for coins less than $5,000. And 18% of ***Spectrum's*** purchases are for coins less than $200.

While ***Spectrum*** is the nation's top dollar buyer of ultra rare United States coins, ***Spectrum*** is also the major buyer for moderately priced United States numismatic coins. Here's a short list of some of the items that **King of Cash** is currently interested in buying: Original BU bags of Morgan/Peace dollars, BU rolls of Walking Liberty 50¢ and **original rolls of Mercury Dimes, MS66FB Mercury Dimes**, ALL BU gold coins, pre-1916 Type coins in all grades, pre-1943 Proof coins and sets, and especially **COMPLETE COLLECTIONS!**

HOW TO CASH IN

If you've decided that you want to trade all or some of your coins for cash, you should know that it's really easy to do business with ***Spectrum***. If you have rare coins for sale and you want to sell them for as much money as possible, then all you have to do is pick up the phone any weekday between 9:00 am and 4:00 pm California time and call the ***Spectrum*** cash line 714-955-1250 *collect*. Ask for Greg, Thad or Kerry and tell them you have coins for sale. **TELL THEM YOU WANT TO TALK TO THE KING OF CASH.**

The World's Most Important Coins Are Graded by PCGS...Are Yours?

Why are the world's most important coins graded by PCGS?

Because when a discriminating collector goes to the ends of the earth to select the finest known coins for his collection, you can bet he's going to insist on having those coins graded by the most respected and reliable third-party grading service in numismatics — the Professional Coin Grading Service.

But regardless of the size or significance of your collection, we know the importance you place on your coins. We grade each and every coin with equal care — regardless of value or pedigree.

And like the coin pictured here, your personal numismatic masterpieces deserve to benefit from the strict, unwavering grading standard upon which PCGS has built its reputation.

Like the beauty of this coin, PCGS's grading standard has withstood the test of time — and the rigorous demands of the rare coin marketplace — because PCGS's standard remains constant through all market conditions.

PCGS represents professional integrity and grading accuracy to coin buyers and sellers throughout the rare coin community. Time and again, more professional coin dealers, the finest auction houses, the country's most noted collectors, and the coin-buying public depend on PCGS to grade their important coins. The confidence they have shown in our product proves that PCGS is the grading service of choice!

PCGS's grading staff is renowned for its expertise and is comprised of many lifetimes of experience in all facets of numismatics. Assigning the proper grades to our customers' coins has always been our first priority.

And nowhere is PCGS's ongoing commitment to consumer protection and satisfaction more evident than in its cash-backed Guarantee of Grade and Authenticity.

PCGS grades coins from the United States and more than 80 foreign countries. We offer a variety of super-fast turn-around and economy services starting at only $15 per coin. Contact the PCGS customer service department at 1-800-447-8848 for a free list of PCGS authorized dealers nationwide who can assist you in determining which services are right for your coins.

So whether your numismatic masterpiece is worth $50 or $500,000, your coins deserve to be graded by PCGS because every coin we grade is an important coin.

CERTIFIED COIN DEALER newsletter

*CCDN — a weekly report on the **Sight-Unseen** certified market published by the Coin Dealer Newsletter (est. 1963)*

Vol. X No. 48 December 1, 1995 Single copy price $4.00

Sight-Seen Buying Builds on Sight-Unseen Bidding
Steady Market Encourages Examination

As we approach the end of 1995, let's look back at the changes the year has brought to Mint State Type. This is an important component of the market; Mint Type and Mint Gold are the comparisons most often requested by dealers. This week, however, the 'closer look' was inspired by Bidding activity in the *Coin Dealer Newsletter* (*Greysheet*) on the Mint Type Charts. In the *Greysheet* (bearing the same cover date as this issue, December 1), Mint Type showed a nice sprinkling of plus signs. In this *Bluesheet*, Mint Type reflects just as many small declines!

No, this is not a return to the volatility of the late 'Eighties, but merely a reflection of the Bidding trends in the current market. With coins mainly steady, and the floating supply of coins in the marketplace large and balanced, dealers can afford to be "choosy" when selecting coins. Dealers are simply willing to pay some premium for the right to inspect the merchandise before making a purchase commitment. When you see plus signs in the *Greysheet* and minus signs in the *Bluesheet*, that is confirmation that dealers prefer to buy ***sight-seen***.

If this trend continues, it remains to be seen what will happen to the ***sight-unseen*** market. Here I hasten to add that this is not dealers mistrusting the certification services — the current market enjoys a greater consensus on grading than has ever been seen before. The premiums paid for ***sight-seen*** purchasing instead reflect the fact that the retail customer (the ultimate purchaser) is certainly going to visually inspect the coin before money changes hands, and the dealer needs to be certain that the coin meets or exceeds the customer's desires and expectations. Dealer inspection has become an important link in the chain of customer service. A successful dealer must have a 'successful' inventory, and that means inspections on both sides of transactions.

Over the years, we have seen electronic trading in the ***sight-unseen*** market become very important for the movement of generic coins, but with less importance accruing to the rarer coins. Also, in the current ***sight-unseen*** markets, the strongest supporting Bids are found on specimens MS64 and below. These trends make sense, as the greater the monetary commitment of the dealer, the greater the need for inspection, and the lower the ***sight-unseen*** Bid. Some dealers refuse to Bid ***sight-unseen***, but still use the exchanges to find selling dealers so that negotiations can be opened.

So, how did ***sight-unseen*** Mint State Type perform during the past eleven months? Some 69% of the *Bluesheet* Bids are the same or higher than the first of the year, with some nice advances as listed; the 31% showing declines (mostly very small) account for an average drop of 2.8% across the chart. We personally cannot wait for a market that is 'just North of Steady;' we've been good all year — you don't suppose....

- ☐ PCI accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.
- ☐ PCI recognizes that all coins are not "generic." We grade, authenticate, verify and list attributes for errors and varities such as 5, 5+, & 6 steps for Jefferson nickels, DM (deep mirror), DMPL (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute PQ (premium quality) to those coins that qualify.
- ☐ PCI provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.)
- ☐ PCI offers the most affordable rates of any "third party grading service" — and we provide the fastest turnaround time of any grading service . . . for the applicable fee of 7^{50} per coin, plus postage and insurance.
- ☐ PCI excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customers, and our service is backed by our guarantees!
- ☐ As a special bonus — PCI provides a FREE storage box when twenty (20) coins are submitted. ($5 charge for storage box on orders containing less than 20.)

After our 6th year of new and innovative ideas and technology in setting the pace for 3rd party grading, we at PCI have come to rely upon business practices that you can consistently count on. Your coins will be accepted, authenticated, and graded at the lowest rate and the fastest turnaround time of any service . . . guaranteed!!

Branch Mint Gold Popular at Numisma '95 Market Still Searching for Fresh Dollars

The Numisma '95 sale, held last week in New York, proved once again that serious buyers in this market are anxious to pursue rare date and better-quality coins (especially U.S. Gold), whether "raw" or certified. Total Prices Realized for the sale exceeded $6.6 million, with a large crowd of floor bidders showing real demand. The three "wowsers" of the session (1797 50¢ in Gem BU @ $517,000, the 1794 $1 in Gem BU @ $577,500, and the 1796 $2.50 (No Stars) in Ch BU @ $605,000) were all "raw, but the Stack's session gave them plenty of opportunity to pursue certified Branch Mint Gold rarities.

Specialists in the No-Motto Half Eagles were nearly overwhelmed by the possibilities presented in the Numisma '95 Sale. So many choices among so many rarities that come up so seldom; the ability of the market to absorb so many nice coins remains impressive. The dispersal of such a major collection will redefine price levels for some time, and it may well be a decade before another group like this hits the auction block.

Overall, the certified coin market remains the same — steady — with the same discounted sells still slowly chipping away at the same Bid levels. Dealers, who are 'used to' complaining about the lack of fresh material in the floating supply of rare coins, are focusing their concerns on the lack of fresh money entering the market. The fresh dollars that dealers are looking for now are green and flat.

This week's charts reflect the stability of the market, with more than 97% of the Bids holding steady, with some solid advances taking place on the Buffalo Nickels. We haven't talked about the Buffaloes too much since they peaked at the end of summer, but they are still capable of generating some advancing demand. More than two dozen plus signs mark their intermittent advance this week. After leading the market for so long, dealers remain hopeful that the Buffs can sustain another rally.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

The World's Most Important Coins Are Graded by PCGS...Are Yours?

Why are the world's most important coins graded by PCGS?

Because when a discriminating collector goes to the ends of the earth to select the finest known coins for his collection, you can bet he's going to insist on having those coins graded by the most respected and reliable third-party grading service in numismatics — the Professional Coin Grading Service.

But regardless of the size or significance of your collection, we know the importance you place on your coins. We grade each and every coin with equal care — regardless of value or pedigree.

And like the coin pictured here, your personal numismatic masterpieces deserve to benefit from the strict, unwavering grading standard upon which PCGS has built its reputation.

Like the beauty of this coin, PCGS's grading standard has withstood the test of time — and the rigorous demands of the rare coin marketplace — because PCGS's standard remains constant through all market conditions.

PCGS represents professional integrity and grading accuracy to coin buyers and sellers throughout the rare coin community. Time and again, more professional coin dealers, the finest auction houses, the country's most noted collectors, and the coin-buying public depend on PCGS to grade their important coins. The confidence they have shown in our product proves that PCGS is the grading service of choice!

PCGS's grading staff is renowned for its expertise and is comprised of many lifetimes of experience in all facets of numismatics. Assigning the proper grades to our customers' coins has always been our first priority.

And nowhere is PCGS's ongoing commitment to consumer protection and satisfaction more evident than in its cash-backed Guarantee of Grade and Authenticity.

PCGS grades coins from the United States and more than 80 foreign countries. We offer a variety of super-fast turn-around and economy services starting at only $15 per coin. Contact the PCGS customer service department at 1-800-447-8848 for a free list of PCGS authorized dealers nationwide who can assist you in determining which services are right for your coins.

So whether your numismatic masterpiece is worth $50 or $500,000, your coins deserve to be graded by PCGS because every coin we grade is an important coin.

PROOFLIKE MORGAN DOLLARS

P/L Dollars may be semi-reflective on one or both sides, with less reflectivity than the deep-mirror Prooflikes. Bids for P/L's are usually much lower than for DMPL's but command some premium over non-P/L strikes.

IN OCTOBER THE KING OF CASH WENT TO NEW YORK...

DID YOU SEE HIM?

DID YOU GET ANY OF HIS MONEY?

On October 16th and 17th, 1995, Stack's in New York City, held their 60th Anniversary Sale. It was a fabulous group of coins and the auction was attended by every major rare coin dealer. The competition was fierce and the winning bidders had to be willing to pay more than any other dealer or collector in the world for these fabulous coins.

One firm clearly dominated the bidding action. The entire sale realized $4,716,720. ***Spectrum Numismatics*** spent a total of $1,275,008. They were literally 27.03% of the sale. The **King of Cash** had struck again.

Highlights of ***Spectrum's*** purchases at the 60th Anniversary Sale include:

1799 Silver Dollar	**$60,500**
1855 Ty. II Gold Dollar	**$41,800**
1880 $4 Coiled Hair Stella	**$308,000**
1907 $10 Indian	**$50,600**

When great coins are sold, no one is willing to pay more than ***Spectrum Numismatics***. And if you have ultra rarities for sale, it's clearly in your best interest to talk to the **King of Cash**. But Spectrum is also a major buyer of **ALL** U.S. numismatic coins in **ALL** grades and **ALL** price ranges.

WHAT KIND OF COINS CAN YOU SELL TO THE KING OF CASH?

Spectrum paid $962,500 for the 1913 Liberty Nickel; $1,815,000 for the King of Siam Proof Set and $308,000 for a Coiled Hair Stella. But the facts are that 94% of ***Spectrum's*** purchases are for coins less than $5,000. And 18% of ***Spectrum's*** purchases are for coins less than $200.

While ***Spectrum*** is the nation's top dollar buyer of ultra rare United States coins, ***Spectrum*** is also the major buyer for moderately priced United States numismatic coins. Here's a short list of some of the items that **King of Cash** is currently interested in buying: Original BU bags of Morgan/Peace dollars, BU rolls of Walking Liberty 50¢ and **original rolls of Mercury Dimes, MS66FB Mercury Dimes**, ALL BU gold coins, pre-1916 Type coins in all grades, pre-1943 Proof coins and sets, and especially **COMPLETE COLLECTIONS!**

HOW TO CASH IN

If you've decided that you want to trade all or some of your coins for cash, you should know that it's really easy to do business with ***Spectrum***. If you have rare coins for sale and you want to sell them for as much money as possible, then all you have to do is pick up the phone any weekday between 9:00 am and 4:00 pm California time and call the ***Spectrum*** cash line 714-955-1250 *collect*. Ask for Greg, Thad or Kerry and tell them you have coins for sale. **TELL THEM YOU WANT TO TALK TO THE KING OF CASH.**

CERTIFIED COIN DEALER newsletter

CCDN — a weekly report on the **Sight-Unseen** certified market published by the Coin Dealer Newsletter (est. 1963)

Vol. X No. 50 December 15, 1995 Single copy price $4.00

Most Proof Type Steady on Year Gem Commemoratives To Shine At F.U.N.

In the ***Bluesheet*** issue of December 1, 1995, we looked at some of the better performing Mint State Type coins during the first eleven months of 1995. Well, we're a little closer to the end of the year, and we thought to make a similar comparison for the Proof Type coins. After all, these two charts cover a large part of the rare coin market; add in the Mint State Gold Type and you've cornered most of the market.

On *average*, you would have to say that the Proof Type coins performed about as well as the Mint State Type coins. Some 67% of the Proof Type Bids are the same or higher than they were in January (keep in mind that of those remaining "the same", they may have gone up and down — or vice versa — during the year). This compares very closely with the 69% of the Mint State Type coins that resisted the market's slow slide. Of the 33% of Proof Type that did show declines, they accounted for an overall *average* decline of 2.4% across the chart thus far during 1995 (this compares nicely with Mint State Type's average 2.8% decline). This is the same small decline that accounts for the continuing declines in the Proof Type *Coin Market Index* (*CMI*) figures week to week. In one final comparison, the chart shows 18 Proof Type issues that advanced 10% or more during 1995 — the same number as found on the Mint State Type chart. While the Mint State Type and Proof Type are never in complete 'synch' in their movements, this year is about as close as most dealers can remember.

There will be considerable action on certified coins in the 1996 F.U.N. Sale to be presented by Heritage Numismatic Auctions on January 4, 5 & 6 at the Convention Center. Dealers are anticipating a "solid" F.U.N. Show, although few are making wild predictions about sales; on the other hand, many dealers are declaring their intentions to make this a "buying" show for those Want Lists that gathered dust during December. It seems to us that if enough dealers plan on *buying*, somebody should enjoy a healthy *selling* Show! As long as Bid levels continue to slip ever-so-slightly courtesy of the discounted sells, you can expect dealers to continue to describe this as a buyer's market; the real problem is that the retail customers are thinking likewise. Of course, as long as they keep buying and coins keep trading, the market will do just fine at its new levels.

Specialists seeking Gem certified Commemoratives will be out in force at the Heritage Show, with the impressive Dean Collection on the block: (see inset)

And remember that this list *does not* include the myriad of MS66s, some *duplicate* 67s, or the Grant with Star in PCGS Pr64.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets.
Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

THE KING OF CASH IS COMING TO FLORIDA WILL YOU TAKE SOME OF OUR MONEY. . .

PLEASE?

It's a new year. . .but cash is still king. And in the rare coin market, ***Spectrum Numismatics*** is still the **King of Cash.**

The Florida United Numismatics (F.U.N.) traditionally hosts the first major coin show of the year. This year, the show is in Orlando, Florida on January 4th through 6th. ***Spectrum Numismatics*** will be at the FUN show with an open checkbook and a huge appetite for rare coins. WE WANT TO BUY YOUR COINS AND WE'RE WILLING TO PAY MORE THAN ANYONE ELSE TO GET THEM!

Everyone always says they pay top dollar, but at public auctions and at coin shows, ***Spectrum Numismatics*** continually proves that they are **the ultimate buyer.** Our most recent purchase was the 1796 $2½ we bought at the November 29, 1995 Stack's auction for $605,000, the sixth highest price ever paid for a U.S. coin at public auction.

When great coins are sold, no one is willing to pay more than ***Spectrum Numismatics***. And if you have ultra rarities for sale, it's clearly in your best interest to talk to the **King of Cash**. But Spectrum is also a major buyer of **ALL** U.S. numismatic coins in **ALL** grades and **ALL** price ranges.

WHAT KIND OF COINS CAN YOU SELL TO THE KING OF CASH?

Spectrum paid $962,500 for the 1913 Liberty Nickel; $1,815,000 for the King of Siam Proof Set and $308,000 for a Coiled Hair Stella. But the facts are that 94% of ***Spectrum's*** purchases are for coins less than $5,000. And 18% of ***Spectrum's*** purchases are for coins less than $200.

While ***Spectrum*** is the nation's top dollar buyer of ultra rare United States coins, ***Spectrum*** is also the major buyer for moderately priced United States numismatic coins. Here's a short list of some of the items the **King of Cash** is currently interested in buying: Original BU bags of Morgan/Peace dollars, BU rolls of Walking Liberty Halves and **original rolls of Mercury Dimes, MS66FB Mercury Dimes**, ALL BU gold coins, pre-1916 Type coins in all grades, pre-1943 Proof coins and sets, and especially **COMPLETE COLLECTIONS!**

HOW TO CASH IN

If you've decided that you want to trade all or some of your coins for cash, you should know that it's really easy to do business with ***Spectrum***. If you have rare coins for sale and you want to sell them for as much money as possible, then all you have to do is pick up the phone any weekday between 9:00 am and 4:00 pm California time and call the ***Spectrum*** cash line 714-955-1250 *collect.* Ask for Greg, Thad or Kerry and tell them you have coins for sale. **TELL THEM YOU WANT TO TALK TO THE KING OF CASH.**

☑ $\$7^{50}$ PER COIN

☑ 6-DAY SERVICE

Tells why more people are turning to P C I

- ☐ PCI accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.
- ☐ PCI recognizes that all coins are not "generic." We grade, authenticate, verify and list attributes for errors and varities such as 5, 5+, & 6 steps for Jefferson nickels, DM (deep mirror), DMPL (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute PQ (premium quality) to those coins that qualify.
- ☐ PCI provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.)
- ☐ PCI offers the most affordable rates of any "third party grading service" — and we provide the fastest turnaround time of any grading service . . . for the applicable fee of $\$7^{50}$ per coin, plus postage and insurance.
- ☐ PCI excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customers, and our service is backed by our guarantees!
- ☐ As a special bonus — PCI provides a FREE storage box when twenty (20) coins are submitted. ($5 charge for storage box on orders containing less than 20.)

After our 6th year of new and innovative ideas and technology in setting the pace for 3rd party grading, we at PCI have come to rely upon business practices that you can consistently count on. Your coins will be accepted, authenticated, and graded at the lowest rate and the fastest turnaround time of any service . . . guaranteed!!

Market Quiet At Year's End Last *Bluesheet* of 1995

The year is ending as quietly as it began, with dealers still wondering when the retail market is going to "heat up." Dealers were wondering the same thing at the beginnings of 1994, 1993, and 1992. We have seen about five years of a "mostly steady" market, where the only excitement seemed to be from guessing which series would star for the next three months. Actually, auction sales generated a fair amount of excitement as well, with many "old-time" collections bringing "fresh" material onto the market. Actually, considering the number of fresh coins that have come onto the market, the ability of the collectors and dealers to absorb them all is nothing short of miraculous. The sale of these old-time "raw" collections has another interesting effect; you can tell when the lots have been picked up by the flood of material into the certification services.

Trained by years of volatility, coin dealers remain an optimistic lot; they are always looking forward to the next show, the next auction, the next year. Hmmmm. Seriously, one of the reasons that dealers are seriously anticipating the F.U.N. Show is that they know that such major shows will give them the opportunity to inspect more coins than they have time for, buy more coins than they have money for, and still find fewer coins than they have Want Lists for. Between the bourse and the gavel, you can bet that the majority of Want List items will be procured and quickly 'turned-around.' Active Want Lists for *rarer* coins mean looking forward to the next Show, because that might be where it is finally found.

One important hub of the certified market remains the electronic services. Hundreds of dealers are to be found on ATC and CoinNet (with some on both!), and the movement of coins there means another useful dealer tool. There remain more coins than Bidders in the market, so Bid coverage on many issues is thinner than desired, but the Generics are well covered. Coin dealers, as a rule, have been slow to adopt the computer as their friend and business associate, so the tendency is to belong to one system or the other. Most dealers cannot find enough hours in the day to keep up with one, let alone two systems!

While gathering information from the entire market for the *Bluesheet*, we are often struck by the vast discrepancies between high Bidders on the various systems, and even between Bids on the 'Exchanges' on each system versus the Bids on the 'messaging' side. For example, on Morgan Dollars this week, an 1880-CC $1 in NGC65 was high Bid at $320 on one system, but the highest active Bid in the market was $400. This is neither an isolated nor extreme case. An 1884 $1 in PCGS66 was 'Exchange high' at $530, but 'market' high at $720; an 1889 $1 in PCGS66 showed up $900 versus $1,200; an 1889-S $1 in NGC64 at $162 versus $200; and 1894-S $1 in NGC64 at $580 versus $720; an 1896 $1 in NGC66 at $375 versus $665; an 1897 $1 in PCGS66 at $625 versus $1,290; a 1900 $1 in PCGS66 at $445 versus $660 and a 1900-O in NGC66 at $325 versus $600. And this is, by no means, a comprehensive list — we just listed a few of the typical spreads to be found while examining the *entire* market.

The bottom line is that dealers who limit their sources of information can easily leave *substantial* money on the table. By examining all sources of information, the *Bluesheet* can provide dealers with their highest 'target' prices, but they still have to locate and strike a deal with the other dealer. Supply and demand don't mean much if they cannot find each other, and every week we see too many examples of dealers selling to the most convenient — instead of the highest — Bidder. I guess that's OK if it's a friend, but many times we see sells at *substantial* discounts to the high Bid, and such sales are not good for the sellers or the market. Buyers at the lower levels seem happy enough with such market inefficiencies, however.

This is the final issue of the *Bluesheet* for 1995. The *CDN* staff would like to wish all of our subscribers the happiest of Holidays and a most prosperous New Year. The next issue will be dated January 5, 1996.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

MARKET LISTINGS

MARKET columns reflect the latest dealer–to–dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks, sell lists, coin shows and other sources of *wholesale* transactions. Auction *prices realized* or *retail* trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or belief that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase, or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy**: During the thirty days prior to publication, we track the lowest sales–related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "**w**" – Lowest asking price during the week prior to publication (week old); "**m**" – Lowest asking price during the previous three weeks (*m*onth old); "**t**" – *T*rade during the most recent month; "**lm**" – Lowest asking price appearing *l*ast *m*onth; "**lt**" *T*rade appearing *l*ast month; "**ot**" *T*rade older than 2 months; " " a blank, for all Market prices older than two months; "**a**" for auction transactions; "**oa**" – auction older than 1 month.

COMMEMORATIVES

Some bids within represent very conservative sight–unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

Dwight Manley Offers These NEW PURCHASES

1900 PROOF SET:

An absolutely stunning original 6 piece wonder set! 100% matching, this is available for less than what the 50¢ piece alone was trading for in 1989! Grades are 1¢-66RD; 5¢-66; 10¢-66; 25¢-68; 50¢-68; 1$-68! Without question the finest 1900 original set known. $42,500

1901 PROOF SET:

Hands down the rarest year to find in Superb Gem of all the Barber/Morgan years! This also is the 100% finest known 1901 set in the world! Definitely a set for the connoisseur, as it may be another 94 years, if ever, for a comparable set to appear. Priced at about 50% of what the $1 alone was worth in 1989. Grades are 1¢-67RB; 5¢-67; 10¢-66; 25¢-68; 50¢-68; $1-68!!! All toned and matched in unbelievable hues. ..$57,500

1904 PROOF SET:

An immaculate, matched original set displaying superb cameo obverses on the 25¢, 50¢, and $1. 1904's are typically dreary to look at, but this set has it all. A great deal for this "Last Year" of the Morgan set. Grades are 1¢-65RD; 5¢-66; 10¢-67; 25¢-67; 50¢-66; $1-66. ....$19,750

1905 PROOF SET:

Grades are 1¢-65RD; 5¢-66; 10¢-67; 25¢-67; 50¢-68! What a Half. Not only is this the only PCGS 1905 in Proof-68, it has got one-of-a-kind knock out killer toning. Looks like a Rembrandt, and this set is priced to sell...$20,000

1906 PROOF SET:

Another original matched beauty. For the customer who wants the best at today's ridiculously cheap prices. The coins are 1¢-66RD; 5¢-67; 10¢-68; 25¢-68; 50¢-67. Also priced **Very, Very** reasonably. $22,000

Call quickly, as these won't last!
